Dear Mint Customer,

As someone who knows and appreciates the value of beautiful coins, I think you will find that the U.S. Veterans Commemorative Silver Dollars live up to the standards you have come to expect from the United States Mint. And if coins with military significance are a part of your collection, then these are without question a necessary addition.

Many coins, whether circulating or commemorative, pay tribute to the great military events and leaders that have shaped our nation. What is different about these coins is that they pay tribute to some of the people who are often overlooked — American Prisoners of War, Vietnam Veterans, and Women In Military Service For America.

Right now, you can purchase all three coins as a set and save as much as \$14 over what you would pay buying them individually.

Whether you order them as a set or individually, I encourage you to order them quickly. The mintage level for each coin is just 500,000. Given some of the recent sell-outs of silver dollars, like the White House and Thomas Jefferson Coins, it makes sense to act now.

Purchase the U.S. Veterans Silver Dollars and honor these special Americans who proudly served. Do it for them. Do it for your collection.

Sincerely,

Philip N. Diehl
Director
United States Mint

P.S. Please don't let the limited mintages catch you by surprise. Two other commemorative silver dollars sold out in less than six weeks. So order soon.
